EDUCATION

Degree	Institute/Board	CGPA/Result	Year
B.E./B.Tech Computer Science Engineering	National Institute of Technology, Hamirpur	8.27/10	2026
Intermediate (12th)	DAV Public School, Ambota / CBSE Board	95.0%	2021
Secondary (10th)	DAV Public School, Ambota / CBSE Board	92.6%	2019

EXPERIENCES

Founder's Office Internship

M/s Pahadi Craft ([Live Website](#))

May 2025 - Jul 2025

Hybrid

- Contributed to enhancement of an AI-integrated eCommerce platform featuring product management and admin dashboard workflows; assisted in launching 3 products, contributing to a 15% increase in sales.
- Managed vendor communication, packaging, and costing tasks, which helped reduce production expenses by 12%.
- Supported hiring, coordination, and marketing, generating 120+ organic leads via content and social media.

Space Tech Winter Training & Internship

India Space Lab - ISL ([Astronomy Report](#))

Dec 2024 - Jan 2025

Remote

- Completed a 4-week certified Winter Training & Internship by ISL, covering domains such as **Advanced Drone Technology, Astronomy & Cosmos, CanSats & CubeSats**, with exposure to 20+ space-tech systems and applications.
- Applied core CS concepts using **ROS (Robot Operating System)** to develop and simulate drone control systems, satellite telemetry modules, and real-time data communication pipelines in space applications.

PROJECTS

Cardiovascular Diseases Prediction | [Python \(Flask\)](#), [HTML](#), [CSS](#), [JavaScript](#) | [GitHub](#)

Nov 2025 - May 2026

- Engineered a Flask diagnostic portal utilizing TabPFN to predict **10-year CVD risk** from **15+ parameters**.
- Architected a **2D U-Net MRI segmentation pipeline** to dynamically extract **35** distinct cardiac radiomic features.
- Deployed an XGBoost inference engine within a clinical dashboard to classify **5 ACDC disease categories**.

Face Emotion Detection | [Python](#), [PyTorch](#), [YOLOv8](#), [OpenCV](#), [Google Colab](#) | [GitHub](#)

May 2025 - Jun 2025

- Developed real-time facial emotion detector using YOLOv8, achieving 94% mAP@0.5 on a 7-class FER-2013 dataset.
- Preprocessed **30,000+ images** with resizing, normalization, and augmentation to boost accuracy & reduce overfitting.
- Integrated **OpenCV with Python GUI** to visualize predicted webcam-based emotion recognition in real-time.

M.A.N.T.I.S. | [Python](#), [C++](#), [ROS-Noetic](#), [Gazebo](#), [RViz](#), [Lidar](#) | [GitHub](#)

Jan 2024 - Apr 2024

- "Mapping And Navigation Technology Integrating SLAM", a simulated autonomous robot using various **2D Mapping methods for SLAM**, enabling precise autonomous navigation and accurate map creation in uncharted territories.

Text-Summarizer GUI | [Python \(NLTK, spaCy, Tkinter\)](#) | [GitHub](#)

Mar 2023 - Apr 2023

- Designed and implemented a GUI application for **summarizing text input & URL-based content** using Python.
- Implemented tokenization, frequency-based scoring, and summary generation using Python libraries including **NLTK** and **spaCy** for effective text summarization.

SKILLS SUMMARY

Programming Languages and Databases: C++, Python, C, MySQL

Libraries, Frameworks & AI/ML: NumPy, Pandas, Matplotlib, Seaborn, OpenCV, NLTK, Tkinter, Flask, Scikit-learn

Developer Tools & Platforms: Git/GitHub, ROS, Gazebo, VS Code, Google Colab, Ubuntu/Linux, Windows

Coursework: DSA, Operating Systems, Compiler Design, OOP, DBMS, SDLC, System Design (LLD), Computer Networks

COMPETITIONS & ACHIEVEMENTS

GATE CS/IT: Successfully qualified **GATE CS/IT 2026**.

Coding Profile: **1590** LeetCode peak rating; solved **500+ problems** on LeetCode, **1200+** across platforms ([Codolio](#)).

IIT-Bombay's e-Yantra Robotics Competition (Logistic Cobot Theme, 2024): Qualified Stage 1 with **AIR #24**.

AlgoUniversity: Secured **21st Rank** amongst **40,000** registered candidates in the AlgoUniversity graph coding contest.

India Space Lab Admission Test: Qualified All-India Admission Exam with **Rank #542**.

Nimbus'24: **1st Runner-Up** in Open Innovation category for M.A.N.T.I.S. project

Electrothon-5.0: Secured "**Best All Girls Team**" Award for Text-Summarizer GUI project amongst **200+** participating teams.

Lead Vocalist in Music Club NITH: Performed at various college-level events and even qualified for **Indian Idol (Junior)**.

POSITIONS OF RESPONSIBILITY

PR Coordinator, Robotics Society NITH: Arranged workshops via social networking campaigns with 60% increase in reach.

Girls Hostel Secretary: Served as the **Head Girl** of NITH Ambika Girls Hostel representing 400+ residents.

Event Organizer, RoboQuest: Hosted **500+** participant Robotics workshops on Obstacle Avoidance & Gesture Control Bots.
